tastes good*

NATIONAL SUPPORT CENTRE FOR AGRICULTURE

(KOWR) is a state-owned institution supervised by the Ministry of Agriculture and Rural Development. It was established to support agri-food producers and exporters and the development of innovative agriculture, as well as to improve the quality of life in rural areas. The role of the KOWR is to build a positive image and recognition of Polish agri-food products abroad under the slogan "POLAND TASTES GOOD." The KOWR supports Polish entrepreneurs in the agri-food industry in their efforts to expand into new markets by organizing trade missions and national stands at food trade fairs abroad.

A red circle containing the slogan "Poland tastes good" in a white, cursive font. The background of the page features a stylized landscape of rolling hills in various shades of green.

FRESH FRUIT SERVICES

FRESH FRUIT POLSKA

Fresh Fruit Polska is a company established in 2004. About half of the fruit offered by our company comes from our own crops. The other part is obtained from fruit growers and blueberry growers, who have been cooperating with us for years. Our fruit sorting plant is located in the centre of the Grójec orchard district known as Europe's largest orchard. This provides us with a high supply of good-quality fruit – both from conventional GlobalGAP-certified production and organic production, the acreage of which is increasing every year. The pear offered by our company comes from Belgium, which has the best conditions for growing this species. We specialise in apple fruit, primarily Gala Royal, pear and blueberry. We are interested in building long-term relationships with food distributors around the world. We want our fresh, healthy and tasty fruit to be eaten with satisfaction by people living in different corners of the world. In addition to fruit, we also offer apple and pear trees.

FRUIT FAMILY

FRUIT FAMILY is a thriving Producer Group with 87 shareholders who produce fruit in an area of more than 1 thousand ha. Our annual production is about 35 thousand tonnes of apples.

We have one of the most modern fruit sorting lines in Europe, manufactured by Greefa, with a capacity of 30 tonnes per hour, as well as very modern packaging facilities. We have storage facilities with a capacity of 20 thousand tonnes. All our cold stores are ULO and some of them are CA. We can also offer our own transport. We are able to prepare large and homogeneous lots of high quality goods in a wide range of packaging even for the most demanding customers. Although we are a company with several years of experience, our passion and full commitment made us acquire a regular group of trusted partners at this stage.

LUBAPPLE

Picturesque Lubelszczyzna, where our fruit ripen, is one of the major fruit-growing regions. The group of fruit producers we created draws from the most beautiful aspects in this region. The highest insolation in the country, high-quality soil, adequately high temperature amplitudes before the harvest and topography are natural conditions in which our fruit can grow freely, acquire nutritional properties, develop taste values and enchant with their colour. The story of LubApple started in 2015, although our fruit-growing experience goes much further. One fruit producer will offer you a lot. We increase these benefits fourfold. We combine the best offers of the producers: ZPO Stryjno-Sad, Józefów Sad Sp. z o.o., Witabo Sp. z o.o. and ZPO Sadpol. Thanks to this approach, we supply the largest retail chains home and abroad.

RAJPOL

Pola originates from Poland, near Grójec, the largest orchard in Europe. Pola products are created on the basis of the best Polish fruit grown by orchardists from the RAJPOL group – one of the largest Polish fruit producer groups. There are 160 orchardists within the Rajpol Group, cultivating fruit on over 1800 hectares. Rajpol has been present on the market for 21 years and has always distinguished itself both by its attention to product quality and innovation in terms of crops, infrastructure and processes.

REFAL

Refal Sp. z o.o. is a group of fruit and vegetable producers near Sandomierz, established in 2009. We are involved in storing, sorting, selling apples and other fruit and vegetables. Our complex located in Łukawa includes cold stores with controlled atmosphere, sorting plant and rest and refreshment and office facilities. The area of orchards belonging to the group members is more than 250 ha, and the production of apples is about 12 thousand tonnes a year. The apple varieties offered all year long are: Golden Delicious, Mutsu, Gala Must, Idared, Jonagored, Jonagold, Elise, Champion and others. Fruit are packed in a wide range of packaging depending on the customers' requirements. Thanks to the Integrated Production and Global G.A.P certificates, customers have a guarantee of the highest quality product.

WIL-SAD

Wil-Sad is an organization of fruit and vegetable producers founded in 2010. Our main activity is to produce and sell apples. Our fruit is available in retail chains present in the Polish market. However, a significant part of our products is directed to foreign markets – to EU countries, as well as the Middle and Far East. We offer a wide range of products of many varieties and with different packaging, which translates into annual sales of approximately 30 000 tons of fruit. We have been certified by GLOBAL G.A.P. and IFS Food, which guarantees the quality and safety of our fruit, whereas GRASP certificate confirms the application of the highest ethical and social standards.
